

## 2019 Challenge: *DRI Turns 60*

DRI has been researching and designing solutions to environmental challenges here in Nevada for 60 years!

### Challenge Topics:

- Air Quality
- Water Quality & Availability
- Ecosystem Sustainability
- Drought
- Wildfire
- Climate Change
- Public Health & the Environment
- Smarter Communities & Autonomous Systems
- Big Data & Cybersecurity

How will you join DRI and the STEM Advisory Council in improving Nevada?

“There is no issue more important to me than making sure **every** child in **every** classroom gets a great education... We are also working to ensure that we give our students the skill sets required to succeed in [Nevada] industries, with STEM education being more important than ever before.”

–Governor Steve Sisolak

State of the State Address, January 16<sup>th</sup>, 2019

### About the Challenge:

The Nevada K-12 STEM Challenge is about engaging students and teachers to use STEM concepts to help solve some of Nevada's biggest challenges. We invite every student, group of students, or classroom in Nevada to examine the challenges in environmental science. We are looking forward to seeing your solutions using STEM concepts and innovative technology at two regional student recognition events in the spring.

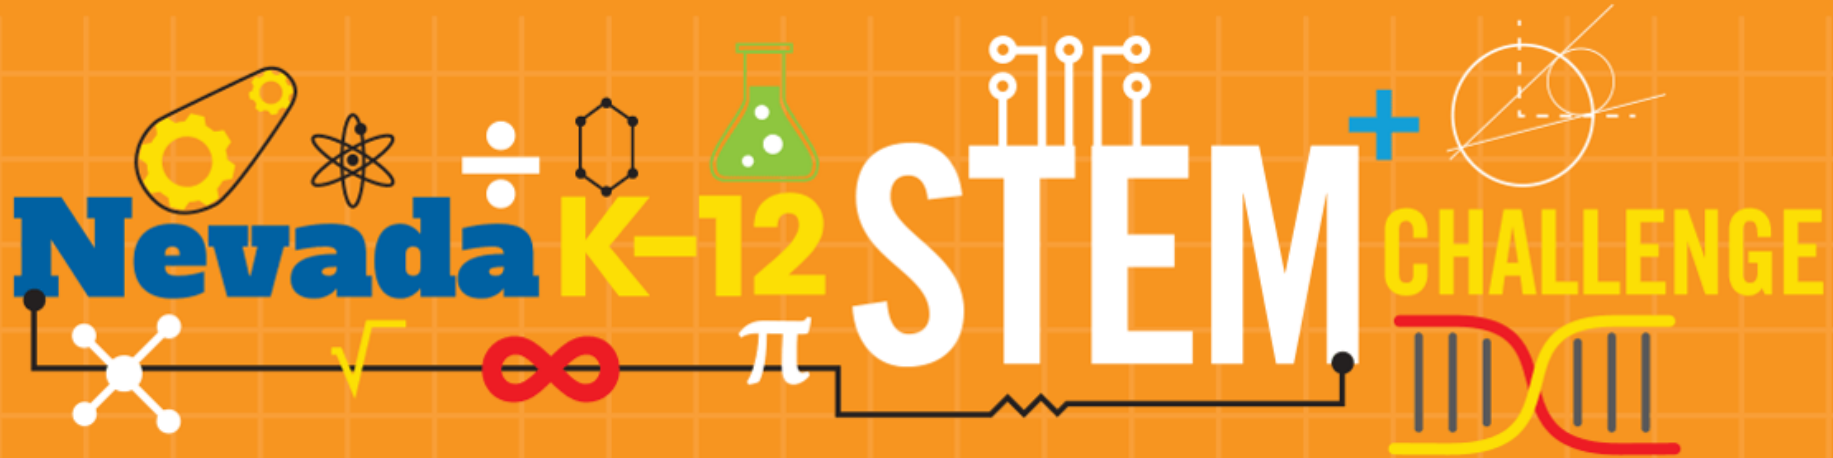

### Recognition Event Details:

The event will be held at DRI's Reno Location (2215 Raggio Parkway, Reno, NV 89512) on May 15th from 4:00 to 8:00.

Students will have the opportunity to showcase their projects.

Industry professionals will be invited to view the projects and ask the students questions about their work. Please be prepared!

**Have questions or want to RSVP? Contact Tracey Gaffney: [tgaffney@gov.nv.gov](mailto:tgaffney@gov.nv.gov)**
