Narrative

Sparks-Reno Indian Colony is requesting proposals for leased lit fiber, leased dark fiber, fully managed service over any transport medium other than fiber, and a self-provisioned solution for delivery of wide area network (WAN) services to the tribal library. They are also requesting bids for necessary C1 equipment necessary to light the dark and self-provisioned fiber, as well as all costs associated with delivering and maintaining the fiber throughout the term of the contract. Service level expected is 1 Gbps and scalable up to 10 Gbps. Service is expected to originate at the library hub site and be delivered to the eligible service locations. All locations, with addresses and demarcation points, are listed in the attached RFP pricing sheet. The new service is being planned to begin on July 1, 2019 which represents the expiration of the current leased WAN service. See RFP for complete details and procurement timeline.

State and Local Procurement Restrictions

To assure full consideration, bids and/or information requests directed to the applicant contact as directed in the narrative of this 470 should reference this Form 470 number. All proposed pricing should be embedded within any bid proposal subject to contract restrictions, services may be reevaluated for cost-effectiveness at any time during the year. Bids for services requested, therefore, will be accepted up to 28 days after the posting of next year's Form 470. As required by E-rate rules, all bids in response to this Form 470 must offer the Lowest Corresponding Price (LCP). See <http://www.usac.org/sl/service-providers/step02/lowest-corresponding-price.aspx>.
