Updates on USAC’s E-Rate Productivity Center and Legacy System

FCC Guidance to USAC on Form 470 Category 1 Menus:

The FCC sent a [letter to USAC](#) last week providing guidance to resolve the confusing Form 470 drop-down menu options introduced last August for applicants seeking various Category 1 combinations of Internet and transport services. As last reported in our newsletter of April 16th, the controversy has most recently been the subject of multiple *ex parte* filings with the FCC. The FCC letter directed USAC:

1. Not “to deny an FY 2018 application solely because the applicant chose the ‘Internet Access and Transport Bundled’ or ‘Transport Only - No ISP Service’ option on its FCC Form 470 and subsequently selected a fiber service on its FCC Form 471;” and

- To revise the dropdown menu on the FY 2019 Form 470 — normally available July 1st — to clearly specify those options that include only “non-fiber services” and those that include “fiber services,” and “to take whatever measures necessary to ensure that applicants fully understand those options.”

The FCC’s directions to USAC for handling FY 2018 applications are in line with the “hold harmless” recommendations requested in several of the *ex parte* filings. The guidance stops short of specifying precise language to be used in the revised Category 1 menu options for the FY 2019 Form 470, but more clarity and less confusion will be welcomed by all.

Reminder on PIA Reviewer Email Addresses:

USAC’s [News Brief of April 20th](#) indicated that they had completed the change of PIA reviewer email addresses to the “usac.org” domain.

PIA Reviewer Email Address Changes Completed

USAC has now completed the change of the format and domain of Program Integrity Assurance (PIA) reviewer email addresses to **firstname.lastname@usac.org**.

The new email address for your reviewer should appear on communications from PIA related to your review. We will continue to forward emails sent to the **sl.universalservice.org** domain so that no communications are lost, but we encourage you to use the new email address to communicate with your reviewer.

Based on our experience, USAC’s transition to the new domain addresses is not yet complete. As a result, not all emails to PIA reviewers using “sl.universalservice.org” are being forwarded to the proper “usac.org” addresses. In such cases, emails to PIA reviewers are bouncing. In particular, watch out for:

- Portal-generated PIA reminders using the old format and, as of last Friday, still being used by many reviewers. A “Reply” to these messages, if not corrected, will use the reviewers’ old email addresses.

E-rate Review Information

- Some of the reviewers, even if they’re using their new email addresses, have not yet updated the contact information in their “Signature.”

E-Rate Updates and Reminders

Upcoming 2018 E-Rate Dates:

May 7 FY 2017 Form 486 deadline for funding committed in Wave 33. Other upcoming Form 486 deadlines include:

Wave 34	05/14/2018
Wave 35	05/18/2018

FCC Decision Watch:

The FCC issued its monthly set of “streamlined,” precedent-based decisions ([DA 18-416](#)). Applicants facing similar problems as addressed in these decisions may garner useful information by carefully reading the additional FCC explanations found in the footnotes. The original appeal and waiver requests can be found online in the FCC’s [Search for Filings](#).

The most important aspect of the April streamlined decision is confirmation that the FCC will again, upon request, waive the Form 471 window for applications submitted within two weeks of the deadline. Last week’s grants included almost 200 waivers for over 235 applications. At the same time, the FCC denied out-of-window waivers for applications filed more than two weeks late (not covered by “extraordinary circumstances”).

In other decisions, the FCC:

1. Dismissed:
 - a. Three Requests for Review and/or Waiver deemed moot because the invoicing records indicated that the applicants had been fully compensated or a Form 486 had already been accepted by USAC.
 - b. Three Requests not meeting the FCC’s basic filing requirements.
 - c. Two Petitions for Reconsideration for failing to provide any arguments not already fully considered by the FCC.
2. Granted:
 - a. Four Requests for Waiver for Ministerial and/or Clerical (“M&C”) errors involving incorrect BEN, contract expiration date, or category of service.
 - b. One Request for Review involving competitive bidding for a brand-named supplier.
 - c. Three Requests for Review based on clarifications of bid evaluation, service delivery, or invoice deadline.
 - d. One Request for Waiver (for one FRN, but not another) for which the applicant had not considered price as the primary factor, but did choose the lowest-cost supplier.
3. Denied:
 - a. One Request for Waiver for voice services not supported by the applicant’s discount rate.
 - b. Four Requests for Waiver for invoice deadline extensions.

- c. One Request for Review involving a Form 470 which did not seek bids on the types of E-rate services later requested.
- d. Four Requests for Waiver or Review submitted beyond the 60-day appeal deadline.
